**Sanctuary Scotland Housing Association Limited**

**Mapping Exercise for Assurance Statement - compliance with the requirements of the Scottish Social Housing Charter**

The purpose of this document is to provide the Board of Management of Sanctuary Scotland Housing Association Limited with assurance that the organisation complies with the requirements of Chapter Three of the Regulation of Social Housing in Scotland in relation to the Scottish Social Housing Charter (SSHC). The compliance requirements are defined, the evidence and practice to support compliance is described and additional information or further action defined.

This mapping exercise forms two parts. Part One deals with the SSHC content and how Sanctuary Scotland Housing Association Limited complies with the required outcomes and standards. Part Two assesses compliance against the requirements detailed in Chapter Three of the Regulation of Social Housing in Scotland framework in relation to the SSHC - submission of the annual return, tenant involvement and reporting on performance.

Compliance with the SSHC is a requirement of the Housing (Scotland) Act 2010 and sets the standards and outcomes that all social landlords should aim to achieve when performing their housing activities. Its purpose is to improve the quality and value of the services that social landlords provide by:

- Stating clearly what tenants and other customers can expect from social landlords, and helping them to hold landlords to account
- Focusing the efforts of social landlords on achieving outcomes that matter to their customers
- Providing the basis for the SHR to assess and report on how well landlords are performing. This assessment enables the Regulator, social landlords, tenants and other customers to identify areas of strong performance and areas needing improvement
